

# Environmental Trucking Rocky Mountains Area

## Description

Key Energy Services Environmental Trucking has served the environmental trucking needs of customers in Colorado and surrounding states for the past 20 years. We are experienced in the vacuuming of fluids from underground and above-ground storage tanks, transporting liquids from generators to designated disposal facilities, emergency response from liquid spills and enhanced fluid recovery (EFR) or vapor extraction remediation (VER).

Companies that produce hazardous materials understand the need to properly transport and dispose of them as efficiently and cost-effectively as possible. Key has the expertise, equipment, and federal and state certifications to save you time and money in the handling of all your waste materials.

## Highlights

- **Truck operators have extensive experience in environmental and oil-related businesses, and can customize the solution to the situation**
- **Truck operators are trained in the transport of hazardous materials and certified to haul oil/condensate**
- **Truck operators receive regular HAZMAT training and updates**
- **DOT-certified fleet of vacuum trucks equipped for hauling a variety of liquids, including brine water**
- **DOT HAZMAT-approved storage tanks**
- **Personnel trained in the recording of oil/condensate transactions to meet Sarbanes Oxley requirements**

## Additional Specifications & Capabilities

- **Key Energy Services is fully licensed to haul hazardous and non-hazardous liquids**
- **Steel tanks suited for hauling non-radioactive liquids with a pH level between 2 and 11**
- **Vacuum and flow pumps capable of producing vacuums of up to 23" hg and airflow above 250 cfm**
- **Truck tanks with storage capacities of 3,300 and 5,400 gallons**
- **Equipment available for 2, 4 and 6-inch monitoring wells, with fluid vapors pulled from depths of up to 50 feet**
- **Interface probe for measuring product thickness and water levels up to 100 feet**

## Permits & Authorities

|                             |               |
|-----------------------------|---------------|
| U.S. DOT                    | #669888       |
| Federal ID                  | #0090-06032   |
| Federal Highway Authority   | #MC-346370-P  |
| DOT Hazardous Certification | 052103014041L |
| EPA                         | #COR000011577 |
| Colorado PUC                | #PRC-56793    |
| Colorado PUC Hazardous      | #HMP-03409    |
